WATER IONIZER / ANTIOXIDANT WATER SYSTEM

Powerful Antioxidant  
ORP of -838

## ✓ THE BEST SOURCE OF WATER

Three reasons why Alkal-Life is the best source of water: First, ionized water is a powerful liquid anti-oxidant that is easily absorbed into the body. Ionized water may also neutralize free radicals. Free radical damage causes us to age faster and is largely responsible for many diseases, including cancer. Second, ionized water is alkaline, which may aid in maintaining and balancing our body's pH levels. A proper body pH (7.35 to 7.45) is essential for good health, and drinking Alkal-Life water is good for your body. Finally, the molecular structure of ionized water is smaller than that of regular tap water. Tap water clusters contain 11-16 molecules, opposed to the 5-6 molecules of ionized water. This smaller size allows for increased hydration and better detoxification.

## ✓ OPTIMAL HEALTH

### The Five Ingredients to Optimal Health with Alkal-Life Water

#### ► A Powerful Antioxidant that Provides Detoxification and Cleansing:

Antioxidants work by significantly slowing or preventing oxidation. Drinking alkaline ionized water helps scavenge free radicals in the body. It is nature's greatest antioxidant, laden with negatively charged hydrogen atoms.

#### ► Alkalinizing Action:

Drinking alkaline ionized water greatly enhances the physiological processes.

#### ► Super-Hydration:

Ionization breaks clusters of water molecules into smaller micro-clusters, reducing the size of

the clusters from the 11-16 molecules in standard water to just 5-6 molecules in ionized water. Smaller clusters pass through cell walls more easily and hydrate the cells more quickly. Alkaline ionized water provides superior hydration and nutrition at a cellular level. Alkal-Life water tastes smooth and sweet, increasing your desire to drink water. You can literally taste the difference!

#### ► Bring Your Body Back into Balance:

- Promote healthy weight loss
- Increase absorption of vitamins and minerals

## Minimization of Water Clusters (molecular size of water clusters)

The effect of ionized water depends on the clusters. Smaller clusters are rapidly absorbed deep into the cells and produce strong cellular activity. This size of the water molecules has been minimized to 50.0761 Hz due to the unique technological capability of the Alkal-Life 7000sL.

### ► Cluster Size According to Water Particle Type

Type	Size of water molecules
Tap Water (pH 7.5)	104.8479 Hz
Acidified Ionized Water (pH 2.8)	55.2724 Hz
Alkaline Ionized Water (pH 9)	50.3593 Hz
Alkaline Ionized Water (pH 10)	50.0761 Hz

Tap Water (pH 7.5)

Acidified Ionized Water (pH 2.8)

Alkaline Ionized Water (pH 9)

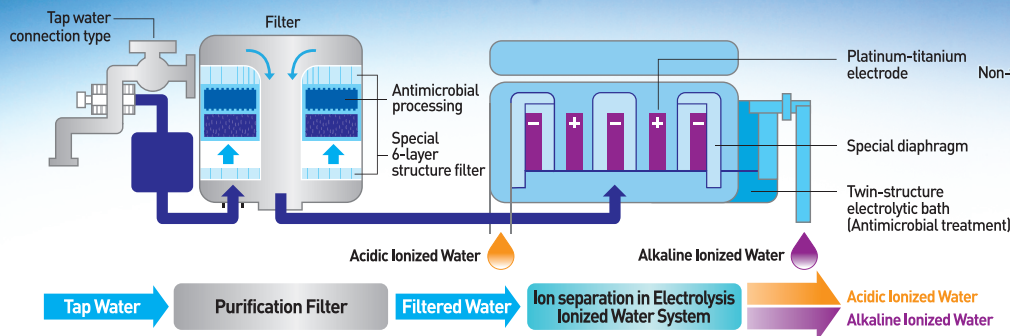

Alkaline Ionized Water (pH 10)

Tap water contains various minerals. An Electrolysis-Ionized Water System converts tap water into alkaline ionized water for drinking and acidic ionized water for household use.

## ALKAL - LIFE WATER BENEFITS - For You and the Environment

### ✓ Disease Prevention for You and Your Family

Eating raw fruits and vegetables, drinking herbal teas with lemon, and drinking six to eight glasses of alkaline ionized water daily is a proven formula for disease prevention.

### ✓ Fountain of Youth

Aging is the result of damage to bodily tissues by organic acids and active oxygen (free radicals). You feel and look younger when you reduce the concentration of waste products that accumulate in your body. The outward signs of aging include wrinkles, sagging, and gray hair. Rejuvenate by drinking alkaline ionized water to wash out acidic wastes.

### ACIDIC IONIZED WATER: FOR CLEAR, CLEAN SKIN, AND A PURE LIFESTYLE

- Bathing and face washing
- Washing feet
- Alternative to rinsing hair with tap water
- Eliminating bad breath and brushing teeth
- Washing vegetables
- Household cleaning
- Removing deposits from kettles
- Cleaning glass windows
- Clean chopping boards and dishes

## ALKALINE WATER & LIFE

### ✓ Water that Removes Waste from the Body

Electrolysis-reduced water removes waste from the body. It helps maintain balance by removing activated oxygen from the body.
